

# 操作手冊

1. 若發現UiPath未正常運作請依據下面步驟進行確認
  - WIFI 請連線 AI.Center5
  - 請檢查 `C:\Users\user\AppData\Local\UiPath` 底下的app-xx資料夾是否編號有大於 app-20.10.2-beta0004
  - ex: app-20.10.4-beta0001 表示有新版，請在工作排成器中檢查 名稱為 `AutoDownloadCheckReportExcel` 的動作裡面的程式或指令碼是否指向最新，若沒有請將指向最新，更新方式點開 瀏覽 選擇最新的資料夾中的 `UiRobot.exe`，並按確認
  - 最後點選工作排程主頁中的 `AutoDownloadCheckReportExcel` 右鍵執行
  - 下載的excel會存放在 `G:\我的雲端硬碟\THU\CheckReport\鐳射發料.xlsx`
- 註：機器人會自動下載 excel 以及過濾欄位，非必要請勿亂動
2. 打開 檢查報工.xlsx並找到最下面的一筆訂單編號 利用此訂單編號在 鐳射發料.xlsx 中尋找，並從上次檢查完畢後的訂單編號開始往後複製並貼上到 檢查報工.xlsx (格式已是先處理好)
3. 執行 `G:\我的雲端硬碟\THU\Program\CheckReport\Go.bat` 並開啟網頁輸入 `127.0.0.1:1010`，第一個input是輸入訂單號碼，第二個是輸入排版圖編號(小提醒：排版圖可以在 excel 直接複製一整排，但僅限同訂單以及同機台，且不需額外處理直接貼到網頁上)，選擇使用機台對應 excel 中的 TK or FOM2，前者是使用機器為：EML3610-TK，後者是FOM2-3015-1，接下來選擇雷射製程，最後選擇報工日期請依據excel中的時記完工日選擇，最後按下查詢，查詢完畢後會顯示成功訊息，若不幸發生Index:0 的訊息請直撥成功嶺電話XD
4. 最後搜尋結果會輸出在 `G:\我的雲端硬碟\THU\Program\CheckReport\output\yyyy-mm-dd.txt`
  - 將檔案內容複製貼上到 檢查報工.xlsx 的檢查結果及原因。

- ex: 查詢訂單: 1091106A002 排版圖編號:11W-U600-T02、11W-U600-T01，搜尋結果如下圖，第一張排版圖是 11W-U600-T02，此張排版圖都正確報工因此在yyyy-mm-dd.txt會顯示為 OK；第二章排版圖是有問題的因此對應到yyyy-mm-dd.txt可以單獨顯示存在哪些問題
